

Hiking in the Negev Desert

October 27th to November 3rd 2016

Hikes in the midst of unique geological phenomena like the erosive craters (*Maktesch*). In the Ramon crater (*Makhtesch Ramon*) we spend 3 days, each day completely different, with each day revealing another part of the earth's pre-history.

Nabatean ancient cities and caravanserais (UNESCO world Heritage sites) are present along our trails to add a cultural dimension to these mineral landscapes.

We will also visit organic farms producing excellent cheese, wine and olive oil.

At the lowest point on earth discover dramatic deep canyons, charming nature reserves inhabited by ibexes and rock hyrax, luxuriant oases... and in between, the striking archaeological sites of Masada (UNESCO world Heritage site),

Of course, a tour in the Judean desert wouldn't be complete without a dip in the therapeutic waters of the Dead Sea.

And finally, the eternal city of Jerusalem unveils its mysteries and beliefs through the Old City winding streets...

Ein Gedi

Massada

Jerusalem - Damascus Gate

D1: Meeting at Tel-Aviv airport.

D2: Visit Shivta Nabatean site – Sde Boker kibbutz – Hike in Ein Avdat nature reserve.
Overnights at Mitspe Ramon
